AXEL ROUND

T-AXE-TD-0012-Z

This round version of our popular Axel dining table is the perfect setting for relaxed entertaining, chatting across the table with friends. The Axel range crosses old world and industrial with its combination of reclaimed wood from decommissioned Chinese junks and hand-treated metal detailing. After decades of exposure to the high seas and elements, the reclaimed boat wood from the hulls, decking, and beams of the boats reflects uniquely weathered colorations and textures. Each piece tells a story, forming a solid, cohesive collection rife with character and personality.
