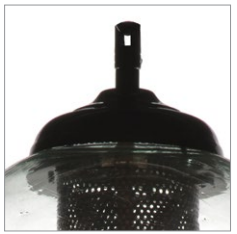
BERNOULLI

T-GLS-LP-0002-U

This smooth pendant light is named after the 18th century Swiss mathematician Johann II Bernoulli, who was awarded a prestigious prize from the Academy of Sciences in Paris for his studies of the propagation of light. The Bernoulli pendant contrasts raw perforated steel with smooth glass, to create a soft and mellow lighting effect. Available in small and large.



OTHER MODELS :

Bernoulli Pendant 40cm
L: 15.6” / 40 cm
